

Close Coordination with Regulators and Community

Since 2015

CFAC has been working under EPA supervision, with input from the Montana Department of Environmental Quality (MDEQ), to assess site conditions and review options to protect public health and the environment.

CFAC has regularly hosted meetings with the Community Liaison Panel, including representatives from EPA, MDEQ, CFAC and the Columbia Falls community.

Next Steps

01

EPA issues preliminary plan with preferred alternative

02

Public comment period opens for preliminary plan

03

EPA issues Record of Decision with final remedy

CFAC is committed to meeting all state and federal obligations related to the assessment and evaluation process. Learn more at CFACProject.com.
